

Product Change Notification

PCN No: 2024-12-02-01
Report Date: December 2, 2024
Subject: MOS-AL162F Header Population Changes

List of Affected Products:

MOS-AL162F-XXXX All color, voltage and temperature options
--

Reason for Change:

For consistency with other Matrix Orbital's alphanumeric displays, power and communication header on the MOS-AL162F is changed to a polarized locking header similar to Tyco 640456-4.

The 2-pin header populated on MOS-AL162F (found on the right side) does not add functionality and is therefore being removed.

Schedule of Change:

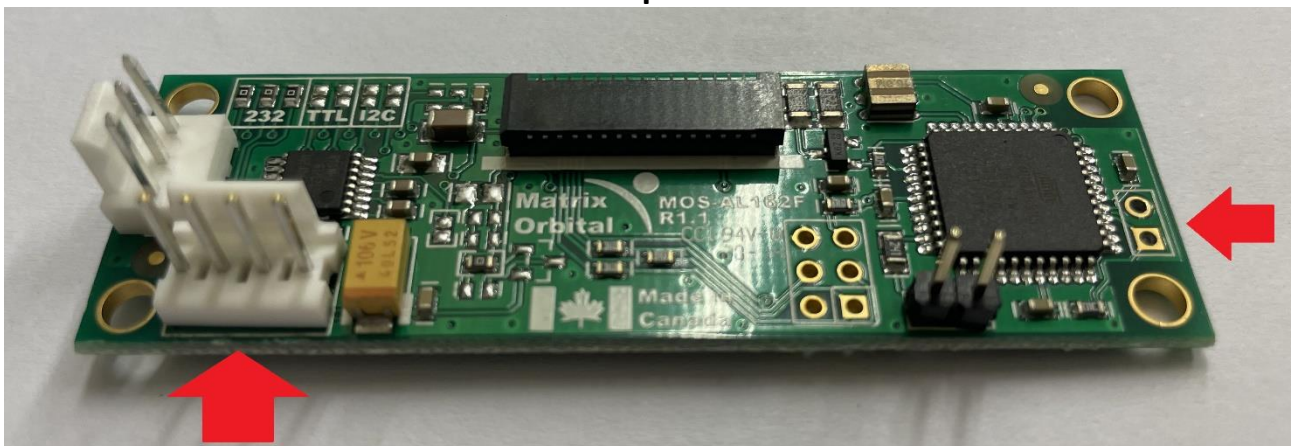

December 2, 2024

Product Change:

Old population

New Population

Documentation Revision
